Welcome to Ken-Welch.NZ

Why not know for sure?

Set up in honour of, and to continue the work of, the late Ken Welch. His original home page.

A political blog using Reverse Speech to spy on political VIPs and others involved in political pursuits. I bypass political lies with the work I do. And many layers of security. I hope you like what you find on this blog, the only one of it's kind on the Web. Finally, nobody owns or controls me. Thanks, Dom.

Blog trim soon

My blog's home page has grown very long. I will shortly be "trimming" it down.

Before I do so, I will make a PDF of this page.

UK PM's statement to the House of Commons on Iran and Straight of Hormuz

I examined Starmer's opening statement only.

Forward: ...confident... **(MURDER MORE)**

0:00 / 0:18

Some kind of murder plot is on his mind whereby MORE people than a previous "terror attack" have to die.

Forward: ...multi-national plan... **(OUR WATCH - TINY BOMB)**

0:00 / 0:26

If this intel is associated with the nuclear 9/11 event: Starmer reveals that the bomb itself it TINY. If it's not nuclear 9/11 related, then some kind of TINY BOMB is involved with a false-flag "terror attack" that Starmer is aware of. The fact he knows indicates that there is UK government involvement. Not a good sign.

New territory for governments

It seems that my blog has created new (security) territory for certain governments around the world.

As I have stated previously, factually I do not know who my readers are. On speculative grounds, I think that 50% are private citizens, like me, and the other 50% are government employees.

Perhaps for the first time in their existence, selected governments are wondering how to manage their information and security requirements with a blog like this.

The intel that is still proving hugely popular is this:

5 April 26 - Easter Sunday

Welcome back visitors

From Iran and Ukraine.

Welcome new visitor

From Palestine.

Trump's Easter message

I have examined this very short Easter message from Trump and found no Reversals.

New Zealand is a day ahead of the rest of the world so, as I write this, it's still Easter Saturday in the Northern Hemisphere.

If on Easter Monday USA time (late Tuesday NZ time), Trump goes ahead and attacks Iran's energy facilities, as he has hinted he may well do if there is no deal, I'll consider going to Orange alert status.

4 April 26 - Easter Saturday

Netanyahu's last media conference - from 31st March '26

He spoke in Hebrew and I have three good Reversals from his speech.

Forward: ...Hebrew... **(ANOTHER MISSILE)**

0:00 / 0:13

Another missile? So, two are involved now? Is the second one a backup? Hmm...

Forward: ...Hebrew... **(ALLAH'S IN THE SHOW)**

0:00 / 0:23

This sounds worrying. How can Allah be seen in the show? I've heard of Project Blue Beam, where a photo-realistic holographic image can be projected into the sky. At some point in the 'show' is an image of Allah going to be projected somewhere in the Middle East? This intel raises many questions.

Forward: ...Hebrew... **(THEY GO WITH OUR LIE)**

0:00 / 0:18

A LIE is at work (as usual) with the psy-op that is running alongside the war with Iran. In my opinion, the LIE being cast is that Iran cannot have a nuclear weapon. Netanyahu and his government understand that this LIE is working and the global public (the majority) are going along with it. Big Oil have won this particular battle.

3 April 26 - Good Friday

Australian PM's address on Iran

No Reversals found from examination of Albanese's three minute long speech.

Trump's national address on Iran

Just three worthwhile Reversals from Trump. No thoughts about Easter insofar no mention of 'Easter'. But:

Forward: ...extremely hard... **(TRY YOUR NUKE)**

0:00 / 0:13

The nuke is going to be tried (attempt to detonate it) without a clear idea of timing. Referring to Starmer's intel where the forward speech lends a clue as to timing, maybe it will be Easter Sunday itself USA time? New Zealand time will be late Easter Monday.

The 'extremely hard' forward speech may indicate a reflection on how hard it has been to make the nuclear 9/11 happen. Houston has been trying for 20 years now. Far too long. But the fact that they keep getting a chance indicates that the rulers of the USA (not Trump), are aware of the political benefits involved and that they are needed, to quote Ursula von der Leyen (see below: our society needs 'EASTER FOR SURE').

The intel YEAH NO MORE FUTURE is a strong case for going to Orange alert status. I want to examine Trump's national address on the Iran war before I make this change.

Marco Rubio interview with al Jazeera

Only one Reversal found from this interview.

Forward: ...that we're trying to achieve here... **(HEY EASTER - NOW'S THE WIN)**

0:00 / 0:22

He's expecting to win the Iran war (and the acquisition of its oil reserves) with the nuclear 9/11 event and subsequent nuclear attack of Iran.

NZ PM's Post Cabinet Press Conference - update

DALLAS, TX
CPAC
RSBN
FOR 250TH ANNIVERSARY | PRESIDENT TRUMP UNVEILS NEW ORDER TO PAY TSA WORKERS | APPLE ADDS NEW

I have finished examining Reza's CPAC speech and have only two Reversals. I must say that Pahlavi's speech is impressive.

He knows about the nuclear 9/11 event and is a bit worried about it.

Unless the design of the nuclear 9/11 plot has changed since the late Ken discovered it 20 years ago (2006), Reza would understand that his home country is to be completely destroyed with nuclear armed missiles from outer space. Has the design of the nuclear 9/11 plot changed? Possibly. I haven't picked up anything in Reverse Speech study to find out, what, if any, change has been made.

I sense that the CIA/NSA and others have learned lessons from Reverse Speech publication and political VIPs are simply being told very little about future geo-political events and their design, let alone the consequences.

Trump's speech on the economy and other issues (the FII one) - update

Trump's speech on the economy and other issues (the FII one)

23 March 26

NZ PM's Post Cabinet Press Conference - Fuel Update

Luxon didn't speak for long (as usual) and so I have only have two Reversals:

Forward: ...depend on its duration... **(SHOW WITH THE MONEY)**

0:00 / 0:17

A 'show' being played out on TV at the moment is all about money. This is most likely the USA/Israel/Iran show on TV.

Forward: ...in the second half of last year... **(THEY SELL ARMAGEDDON ??)**

0:00 / 0:23

Luxon likely understands that the Iran conflict is to end with an 'Armageddon' event (nuclear 9/11) and that it was sold to him sometime last year.

Keep in mind that, as I sense it, all Western and Asian intelligence agencies know about the Easter plot now.

It remains to be seen how the potential fuel problem in NZ and around the world plays out with an Armageddon event.

0:00 / 0:23

Interesting. He's waiting for the Easter moment.

Hegseth's latest press conference on the Iran war

Only one Reversal found from a nine minute long speech.

Forward: ...but they would shoot a lot... **(ALLAH WISH: THE WEAPON)**

0:00 / 0:23

THE WEAPON might be a reference to a nuke. My take on this thought is that Iran would be praying to Allah that they make a nuclear weapon. It is just a thought, though.

In case the USA Federal Government is reading this post: I did Reverse Speech on the Iranian President and found one English language Reversal: THE LITTLE BOMB'S HERE. I have removed the post for it might be too sensitive a military secret to be public and as a mark of respect for Iran. But, in capitals, is the key intel. The word NUKE is not there.

19 March 26

Some interesting intel from him in relation to Iranian culture and the motive for the Iran war.

A fascinating one. Perhaps he's thinking that after so many assassinations of the top leadership in Iran and so many bombings of key infrastructure in Iran, that the IRGC would be of low morale and consider giving up (the ILL). Forward: ...this has been achieved... **(HOUSTON AT THE SEA??)**

0:00 / 0:28

The last word is a bit hard to hear. I think it's SEA. If you scroll down to the 10th March 26 and see my post from Ursula von der Leyen....she states: WE SAW HOUSTON AT SEA. It's only nine days since that intel was found. Both items of intel are likely to be the same understanding.

So....is there a ship at sea with a small missile on board that has a small nuclear warhead? Which part of the planet is the 'SEA' at? Probably the Middle East area. That's my thinking at the moment.

He is mostly 'empty headed' in Reverse Speech study of his speech.

Forward: ...is under... **(A NAZI)**

HITLER (from yesterday's post) and A NAZI from Zelensky. These are clues as to the next system of government if the nuclear 9/11 takes place. A global revolution is needed to STOP the installation of the NAZI type of government.

Hmm...

Priceless propaganda from the US government

It remains to be seen how Houston will counteract this.

After much reflection, I have decided to resign from my position as Director of the National Counterterrorism Center, effective today.

I cannot in good conscience support the ongoing war in Iran. Iran posed no imminent threat to our nation, and it is clear that we started this war due to pressure from Israel and its powerful American lobby.

It has been an honor serving under @POTUS and @DNIGabbard and leading the professionals at NCTC.

May God bless America.

Director of National Intelligence
National Counterterrorism Center

President Trump,

After much reflection, I have decided to resign from my position as Director of the National Counterterrorism Center, effective today.

I cannot in good conscience support the ongoing war in Iran. Iran posed no imminent threat to our nation, and it is clear that we started this war due to pressure from Israel and its powerful American lobby.

I support the values and the foreign policies that you campaigned on in 2016, 2020, 2024, which you enacted in your first term. Until June of 2025, you understood that the wars in the Middle East were a trap that robbed America of the precious lives of our patriots and depleted the wealth and prosperity of our nation.

In your first administration, you understood better than any modern President how to decisively apply military power without getting us drawn into never-ending wars. You demonstrated this by killing Qasam Solamani and by defeating ISIS.

Early in this administration, high-ranking Israeli officials and influential members of the American media deployed a misinformation campaign that wholly undermined your America First platform and sowed pro-war sentiments to encourage a war with Iran. This echo chamber was used to deceive you into believing that Iran posed an imminent threat to the United States, and that should you strike now, there was a clear path to a swift victory. This was a lie and is the same tactic the Israelis used to draw us into the disastrous Iraq war that cost our nation the lives of thousands of our best men and women. We cannot make this mistake again.

As a veteran who deployed to combat 11 times and as a Gold Star husband who lost my beloved wife Shannon in a war manufactured by Israel, I cannot support sending the next generation off to fight and die in a war that serves no benefit to the American people nor justifies the cost of American lives.

I pray that you will reflect upon what we are doing in Iran, and who we are doing it for. The time for bold action is now. You can reverse course and chart a new path for our nation, or you can allow us to slip further toward decline and chaos. You hold the cards.

It was an honor to serve in your administration and to serve our great nation.

Joseph Kent
Director, National Counterterrorism Center

Trump's opening remarks on Iran

I examined the opening remarks from this speech.

Nothing found on Iran and nothing on the nuclear 9/11. But, a pandemic is on his mind as well as myself.

Forward: ...in very good shape... **(BASE THE GERM THERE)**

Forward: ...we're stepping it up... **(WANNA GET WESTALL)**

No more intel on the possible lawsuit. Perhaps its been stopped. Still, Trump is aware that I am still targeted.

UK PM Starmer's Iran war speech

To take the jigsaw puzzle below (of fragmented intel), it looks like Easter '26 is to be the day of the nuclear 9/11, another source somewhat confirming the arrangement.

Everyone should be a bit concerned if Houston manages to finally - after 20 years - to pull it off. A Hitler style Orwellian system of government will be introduced after the period of Martial Law ends. Governments in the know have likely been instructed on what to do. And that includes Prime Minister Luxon of New Zealand, which might be a great country to try a political experiment with.

Forward: ...and because it's... **(HIROSHIMA)**

What's going to happen.

Forward: ...as quickly as possible... **(FOR SALE HITLER)**

FOR SALE HITLER might mean, as Starmer thinks about it, that the Hitler type of government is to be sold to the public.

Forward: ...but this is a vital course... **(SO WATCH OUT - WE ARE SEE HITLER)**

0:00 / 0:40

Another reference to Hitler.

Forward: ...my leadership... **(PRESSURED IN DOM)**

Forward: ...the cheap... **(EASTER)**

0:00 / 0:08

Probably the timing point.

Forward: ...which is hitting global... **(THE WORLD NEEDS TO SEE?? YOU)**

0:00 / 0:30

A bit baffling this. It might be a thought related to the sight of the Hiroshima event. Starmer might be thinking that humanity needs to see Hiroshima, for whatever reason.

Speeches to examine

I have Trump's latest remarks on Iran and the UK PM's speech on the economic impact of the Iran war.

Trump spoke for ten minutes while Starmer spoke for sixteen. I will examine Starmer's speech first.

Easter '26

Just an observation with no Reverse Speech intel to back this up.

Easter is three weeks away. The nuclear 9/11 may be timed for 5th April 2026 (Easter Sunday) and be built into the current military conflict between Israel, USA and Iran.

And this is what the 'EASTER' intel from the past refers to. Twenty years ago Houston tried, for the first time, to create a nuclear 9/11 in the USA, near an unused oil port.

Death is on his mind and he has decided that he wants to pass away alone.

Forward: ...Hebrew... **(FINISH - HIROSHIMA)**

Two readings of this one. One is that the USA, Israel and Iran conflict is to conclude with a Hiroshima event (nuclear 9/11). Two is that the planning for the Hiroshima event is complete.

There may be other readings. Nonetheless, the word HIROSHIMA is there and its clear.

The world is being prepped for a nuclear weapon going off somewhere in the world, most likely the Middle East.

Based on my work with spying on political VIPs with Reverse Speech, I still have reason to believe that a nuclear 9/11 event is on the way. I just do not know where and when. The 'show' on TV networks between the USA, Israel and Iran may be a build-up event for the main event ('Easter' aka nuclear 9/11).

Trump's Iran remarks to date

I examined these short remarks. He's going to have a hard time converting Iranian Revolution Loyalists based on the intel to do with oil:

0:00 / 0:21

Forward: ...Turkish... **(DOMINIC DO THE LIE FIRST)**

Two ways I read into this: a) that I lie, which is false or b) that I work on exposing the lie and then reveal what the truth is. And that I am first before everyone else. I think he's thinking of the latter.

In some ways, I am being complimented - if it's the latter!

The Internet is making it hard for lies to work, that's for sure.

Hegseth's second Iran war update at the Pentagon (second appearance)

Speaking for just ten minutes, there was as much good information from the forward speech as there is from two good Reversals I have found.

Alien intervention is being monitored by the Pentagon, it seems. I got intel from Putin some time ago that the alien issue had been handled (THEY BEAT THE ALIEN).

Detonation of more than one nuke is planned. No indication of where and when. There might be some concern (UNLESS) about setting off the nukes - possibly alien related.

Forward: ...annihilate its navy and... **(ALIENS THEY ??)**

Forward: ...we used more exquisite stand off... **(UNLESS THE NUKES GO ??)**

An unfinished sentence. It happens with Reverse Speech.

U.S. Central Command Commander speaks about Iran operation

Not much Reverse Speech found from this five minute speech by the commander. But, I found two items of intel.

Rubio's remarks after a closed door meeting on Iran

I examined these remarks by Rubio and have some interesting intel.

I'm getting indications that the nuclear 9/11 event may be built into the war with Iran. The IRGC knows the politics of the USA very well indeed. And game playing is one of the tactics. But also lies.

Forward: ...er weapons ambitions... **(MISSION MADE THE COVER)**

This is insightful. DENY DOM means, literally, to prevent me from accessing sensitive information. It's only working to some extent.

Forward: ...repeatedly for years... **(PRAY YOU FEEL THAT EASTER)**

0:00 / 0:22

Houston have been trying to pull off the nuclear 9/11 for years. Rubio is hoping it happen this time around, now that a security issue to do with alien intervention has been fixed (apparently).
